

Wind Tre speeds up with Open Fiber: reached Settimo Torinese

First tlc provider to reach Turin's hinterland district with Open Fiber FTTH services

Rome, 5th april 2018

Wind Tre, in cooperation with Open Fiber, is the first tlc provider bringing in Settimo Torinese the ultra-fast fiber with Fiber-To-The-Home technology (FTTH), the only which allows to arrive directly into citizens' homes.

Wind Tre and Open Fiber thus reach Turin's Hinterland, bringing an infrastructure into Settimo Torinese homes and offices which supports high speed connection up to 1 Gigabit per second and gives the highest performance in the use of telecommunication advances services.

Wind Tre ultra-fast line is available with both "Wind Home" offer, which meets family's needs, and "3 Fiber" offer, mainly directed to a young and new technologyoriented target.

The launch of the new infrastructure is supported by a local communication campaign with billboards and dedicated material reserved to Settimo Torinese Stores.
