

Wind Tre gives the 'evolved viability' prize to the City of Trento during the Cresco Award 2018

Rome, 24th october 2018

Wind Tre delivered an award on 'evolved viability' to Trento Municipality during Cresco Award Sustainable Cities 2018, promoted by Sodalitas Foundation, in collaboration with ANCI. A project that uses technology in a creative way to promote the culture of mobility sustainable has been chosen.

In particular, the Municipality of Trento was awarded for the project "Safe walking children - Kids go green", which uses technology in a simple and creative way to increase sustainable mobility on the way from home to school and reduce traffic.
