

Wind Tre's SUPER RETE 4.5G is the best in Alessandria, measured by the international company P3

Rome, 6th march 2019

Wind Tre SUPER RETE 4.5G, the company led by Jeffrey Hedberg, was judged "the best in Alessandria for high quality performance" according to the international consulting and engineering solutions company P3. The study was based on a series of surveys, completed in November 2018, and analyzed the voice and data services and the level of customer satisfaction (www.p3-group.com/en/italy). The innovative architecture of the integrated Wind Tre network, which in Alessandria and its province has a coverage of 99% of the population, opens the way for the introduction of future 5G services.
