

Wind Tre reaches Lecce with ultrafast FTTH connection

Rome, 18th march 2019

Wind Tre and Open Fiber thus extend their coverage with an infrastructure that ensures the best browsing performances and supports high speed connection of up to 1 Gigabit per second. Wind Tre ultra-fast line is available with a set of convergent offers, including both FTTH connection and mobile data traffic. The launch will be supported by a local advertising campaign.

Wind Tre is the first telecoms operator to bring Open Fiber's ultrafast connection with Fiber-To-The-Home technology (FTTH) directly into the citizens' homes and the offices of Lecce.
