

## **Wind Tre reaches L'Aquila with Open Fiber FTTH connection up to 1 Gbps.**

Rome, 10th october 2019

Wind Tre continues to extend ultra-fast connectivity on the Italian territory and also reaches L'Aquila, a city of art and culture, as well as a leading scientific research center and well known university. The fiber optic services up to 1 Gigabit of Open Fiber are available directly in the companies and in the homes of the citizens of L'Aquila, thanks to Fiber To The Home (FTTH) technology.
