

## **Wind Tre Business launches new Cloud services for Data Protection in partnership with Veeam**

Rome, 21th january 2020

Wind Tre Business launches two new ICT solutions, aimed at businesses and the public administration, created in partnership with Veeam, a well-known vendor in the Data sector Management & Protection. The new Wind Tre Business proposals, in particular, are Cloud Backup Protection, to store and protect corporate data in total security, and Cloud Disaster Recovery, to enable business continuity plans and the rapid restoration of applications in the occurrence of unpredictable events .
